Just spoke to Cinna and they worked out both IAs with Cincinnati using existing funding. At this time, there is no need to commit additional funds to either IA. Give me a call if you'd like to discuss.

No revised WAFs are needed at this time.

Joe

Joe,

Out of the contracts dollars we have remaining, please allocate \$100,000 to the IAG with BOR (this is for the external investigation that they've agreed to do for EPA) and \$100,000 to the IAG with the USCG (this is for the 2 new WAFs for 1) Area Command/Mine Site work and 2) 3 KLP positions. We need this done ASAP so the personnel can arrive to the Gold King Response today if possible. Thank you, lw
